

Tubular heaters series HM-TH

We design and manufacture Tubular heaters according to customer specifications

Mohr Labortechnik, the brand name for the highest quality standards in industrial heating technology, has expanded its product line. We are designing and manufacturing mineral-insulated tubular heaters at our location in Ubstadt-Weiher. In addition to the already well-known and successfully employed heating systems, mineral-insulated tubular heaters can now be offered.

The tubular heaters are produced in diameters of 6.5 mm and 8.5 mm with a maximum tube length of 6500 mm.

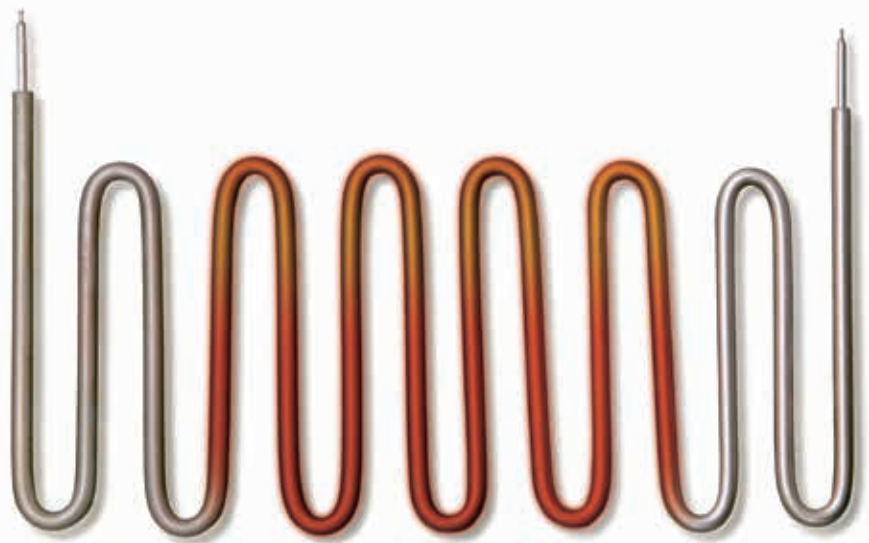

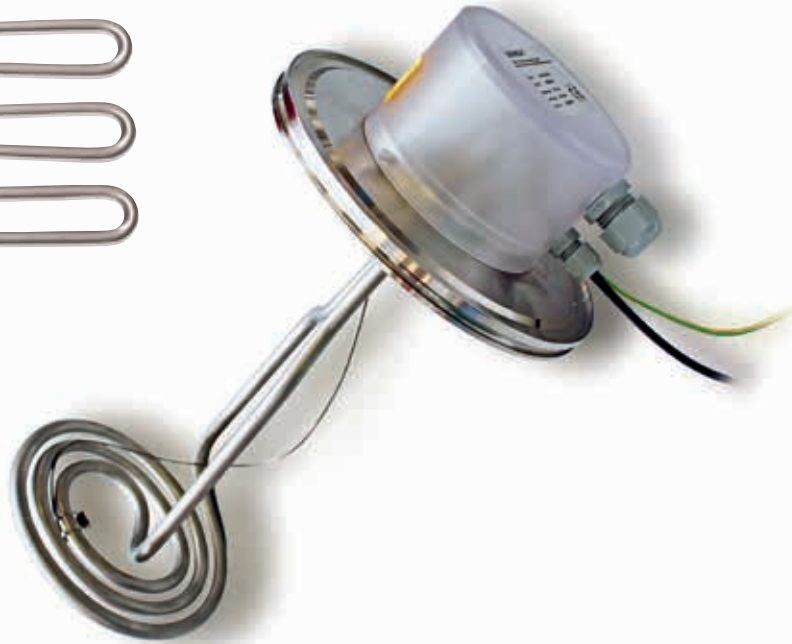

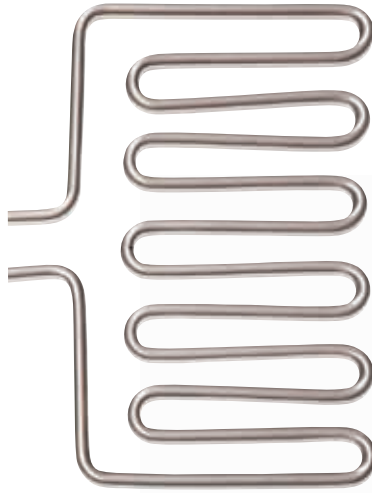

We offer the following:

- Design and Production from a single source
- High quality through precise processing
- Higher standards through our rigorous quality controls
- Extreme flexibility through capacity expansion
- Short processing times
- Short delivery times
- Fill sizes up to 6 m

Characteristics:

Waterproof, with chromium-nickel steel (1.4828) or alloy 825 (2.4858);
nominal diameter \varnothing 6,5 mm and \varnothing 8,5 mm;
length max. 6000 mm;
max. heater temperature 850° C;
nominal voltage until 500 V.
